

# Heckington St Andrew's Church of England Primary School Newsletter

7th November 2019

## Learning Council

Part of the Learning Council initiatives this term include raising awareness of unnecessary waste and taking care of our local environment.

Beth has launched this project with her crisp packet recycling challenge, organising a team of helpers from Hazel class to support every class to collect as many crisp packets as possible to send to Walkers crisps, where they will be reused.

The crew are also collecting single use plastics to create a display that will raise awareness of the impact of the use and manufacture of single use plastics.

We would like to challenge the children and you guys at home to create an animal or sea creature using only recycled materials. This will be added to Beth's project group's display in school.

Beth will be awarding dojos to children who can tell her how they can reduce their carbon footprint in school and in the local community.

Do you use reusable tubs in your packed lunches? Do you use reusable water bottles? How are you helping our environment?

Today, the children met with Dr Grant, the Chair of Governors at Heckington St Andrew's. The children were able to ask Dr Grant questions. They learned a lot about the systems in place for running our country and how they are applied to the systems in our school. The learning council will be submitting reports to the Governors at the end of each big term, in celebration of their contributions to the school and progression of their initiatives.

## Bottle tops

Please can we have donations of bottle tops for our 'War on Plastic' project.

### Dates for your diary
